

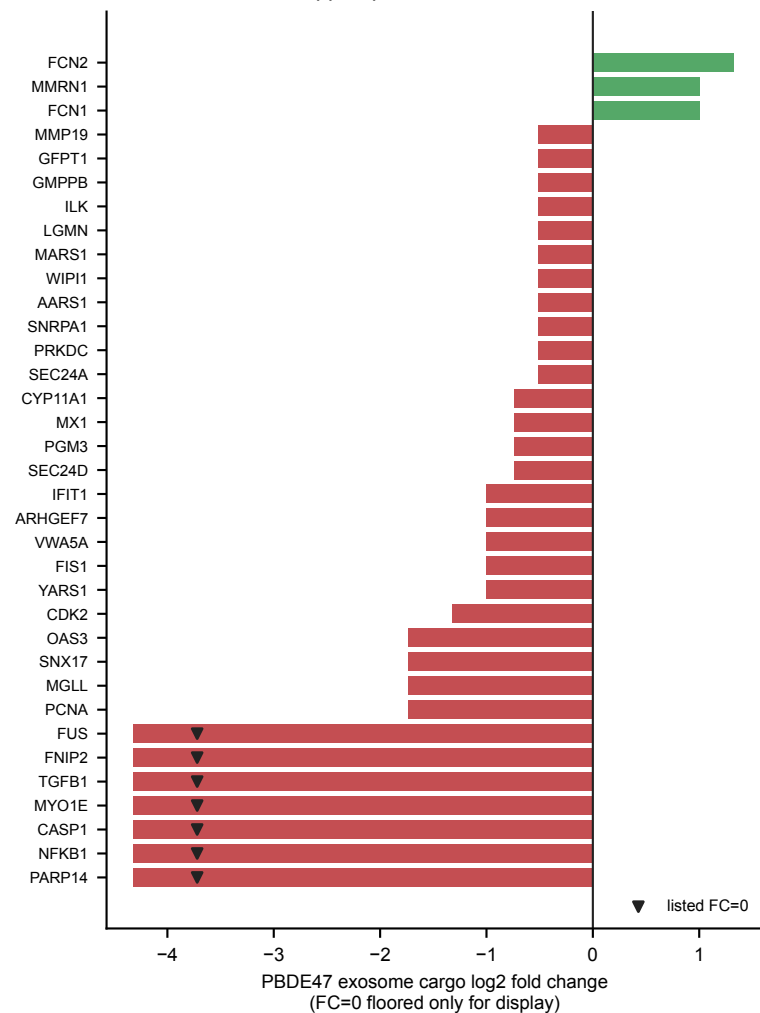

Figure 2. The largest apparent BDE-47 decrease block is placenta-derived exosomal cargo

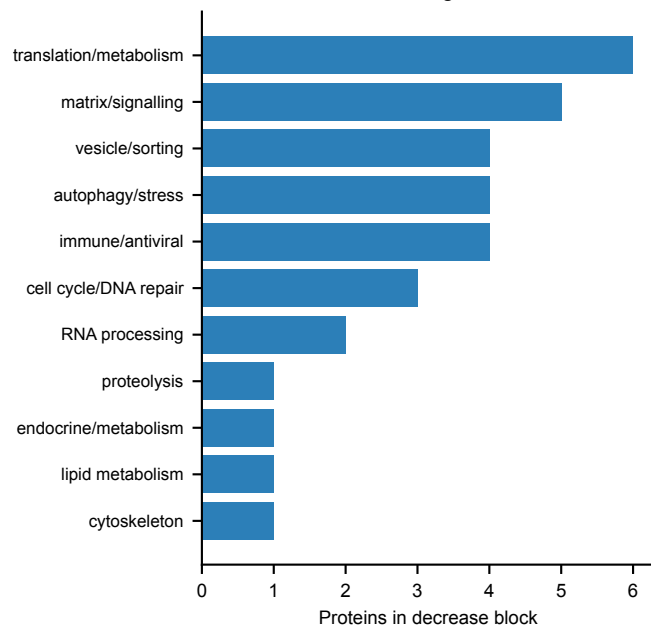

a

35 CTD-mapped proteins from PMID 31675489

b

Functional organization

c

readout	placenta-derived exosomal cargo
CTD-mapped proteins	35/35 recovered
direction concordance	35/35
PBDE47 directions	32 down / 3 up
per-protein FDR	not provided
