

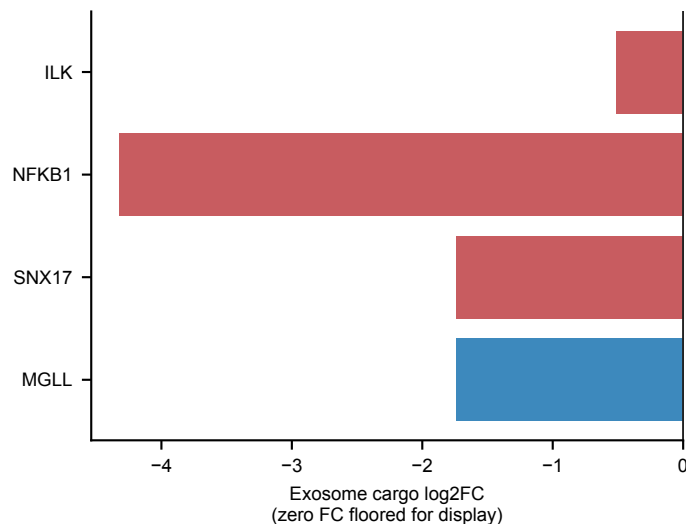

Figure 3. Exosome-cargo and CTB proteome direction contrast

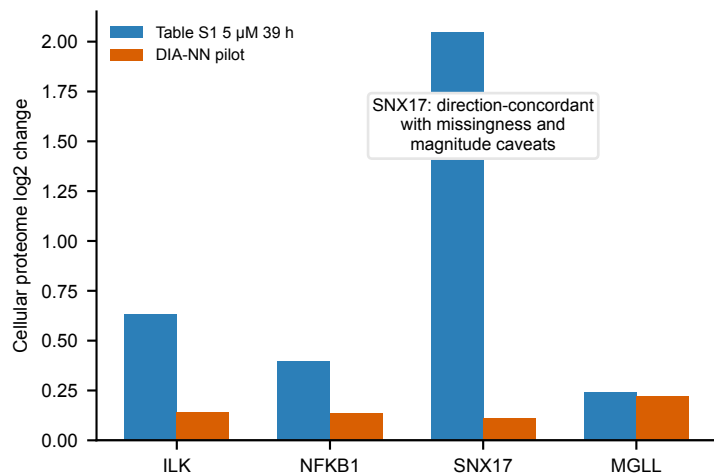

a

Exosome cargo representation

b

CTB proteome direction

c

Evidence boundary

Table S1 contrast	YES
Full-table rarity check	YES
Raw-pilot direction recovery	YES
Author-level differential abundance	NO
Magnitude replication	NO

Bounded directional evidence, not DE validation.

d

Selection and interpretation

Main set	ILK, NFKB1, SNX17
Selection	mapped in both studies
Table S1 pattern	all six conditions higher
Raw pilot	direction recovered
Statistics	direction only; non-significant
Supplement	MGLL outside main set
